

These comparison charts are designed to assist you to select from the Edwards Dunlop Paper range. The product chart shows the specific qualities of each paper range and their relative percentage value\*.

For further information on any of our paper ranges, please call an Account Manager in your state capital.

\* Percentage values are calculated on the average price per tonne of each paper range. Prices are relative to all stock valued at 100%. This chart is a guide only. Prices vary due to weights, colours and quantity ordered.

**EMAS** The EU Eco-Management and Audit Scheme. A voluntary environmental management system for companies and organisations. This standard requires public reporting on progress towards environmental targets, and rigorous environmental management.

**ISO 14001** International Environmental Management Standard. ISO14001 specifies the actual requirements for an environmental management system. It applies to those environmental aspects, over which the organisation has control and can be expected to influence.

**Australian made.**

**Recycled.** Paper which, partly or wholly, is manufactured from recycled material.

**ECF chlorine free** Elemental Chlorine Free. Woodpulp bleached without the use of chlorine gas, a product found to cause toxins in pulp mill effluents.

**TCF chlorine free** Totally Chlorine Free. Paper made from woodpulp bleached without the use of chlorine chemicals, i.e. no chlorine gas or chlorine dioxide.

**pH neutral.**

**neutral**
